RECEIVED
CASS COUNTY COMMISSION

MAR - 6 2018

March 6, 2018

Cass County Commission
Attn: Commissioner Rick Steen, Chair
211 9th Street South
Fargo, ND 58103

Commissioners,

On behalf of the Red River Valley Fair Association, I would like to request permission from the Cass County Commission to list Cass County as the fiscal agent for a grant from the Garrison Diversion Conservancy District.

The application we would like to submit is for the 2018 Spring Matching Recreational Grant Program for Phase IV renovations to the Red River Valley Fair Campground. Renovations will include eight (8) additional ADA compliant parking pads, updated water service to Northside of the campground, replace one and add two additional fire hydrants, additional signage and campground computer and management software. The total amount of improvements to the area would be around \$66,817.00. This Spring Matching Recreational Grant will cover up to 25% of this amount or about \$16,704.25 leaving \$50,112.75 to be picked up by the Red River Valley Fair Association. The full amount will be approved at the Red River Valley Fair Association's March 15, 2018 board meeting.

I want to Thank You in advance for your consideration of this request and if you have any questions, please feel free to contact me via email at bryan@redrivervalleyfair.com or by phone 701-282-2200.

Sincerely,

Bryan K. Schulz, CFE
General Manager
Red River Valley Fair Association

SUGGESTED MOTION:

Move to authorize the Red River Valley Fair Association to list Cass County as the fiscal agent on a grant application for funding through the Garrison Diversion Conservancy District.

Garrison Diversion Conservancy District
Grant Committee
PO Box 140
Carrington, ND 58421-0140

Dear Grant Committee:

On behalf of the Red River Valley Fair Association Board of Directors we have authorized Bryan Schulz, General Manager of the Red River Valley Fair Association to apply for the 2018 Garrison Diversion Conservancy District Spring Grants and to perform the updates at the Red River Valley Fair Campgrounds during the Spring and Summer of 2018.

Updates are outlined per our request for funding.

Sincerely,

A handwritten signature in blue ink that reads "Erik Ramstad".

Erik Ramstad, Board President
Red River Valley Fair Association

**GARRISON DIVERSION CONSERVANCY DISTRICT
RECREATION GRANT PROGRAM
POLICY STATEMENT**

The Matching Recreation Grant Program

The Garrison Diversion Conservancy District Board of Directors instituted a matching recreation grant program and established that funds for the grant program will consist of two tenths of the mill levy Garrison Diversion receives.

Grants may be requested for new recreation facilities, enhancement, expansion or market planning of existing facilities.

Eligibility

Political subdivisions located within the Garrison Diversion Conservancy District may apply for a matching grant, including park boards, water resource districts and county or city commissioners. Community groups, service clubs and non-profit organizations are not eligible to apply for funding.

Multiple-county sponsored projects located within Garrison Diversion boundaries may be eligible for up to 50% of the non-federal share, and **single-county sponsored** projects may be eligible to receive up to 25% of the non-federal share. To be considered for a 50% non-federal cost share, more than one county must contribute funds to the project.

Scope of Projects

Eligible projects may encompass a variety of components which provide actual, or are a complement to, natural resource outdoor recreational opportunities. Projects may include, but are not limited to boat ramps and docks; picnic facilities; sanitary facilities; campgrounds; beach and bathhouses; playground areas; and bicycle, pedestrian, cross-country ski or horse trails.

Application Procedure

The Recreation Committee meets biannually to consider grant applications. A completed application form and required documentation must be postmarked by April 1 or September 1 to be considered at the next meeting.

The application must include, but not be limited to 1) audience intended to be served, 2) estimated project costs, including future operations and maintenance, 3) predicted source of all funding, 4) plans for new construction, and 5) documentation of support for, or objections to, the proposal.

Guidelines for All Applicants

Applications need to include a list of all funding sources applied for and amounts received.

All projects must have long-term managing partners with operation and maintenance funds available for the life of the project.

Applicants requesting \$5,000 or more are encouraged to attend the Recreation Committee meeting to present the project and answer questions from the committee.

Eligible Project Costs

Site planning costs, including engineering costs, may be included as eligible project costs.

Only construction costs incurred after the date of grant approval by Garrison Diversion will be eligible for reimbursement.

Money to be credited as the local sponsor's share of the project may be raised in a number of ways and may consist of actual dollars or in-kind donations of labor, materials and equipment costs.

Non-Eligible Projects

The following are types of projects or elements of projects that are **not qualified to receive recreation funding**:

- 1) Any type of maintenance for a facility or structure or equipment used for maintenance.
- 2) Development, enhancement or maintenance of roads to or within facilities.
- 3) Water lines, sewer lines and electrical services to facilities other than immediate hookups.
- 4) Projects on private property without a public interest to the land.
- 5) Projects on school property.
- 6) Shore stabilization including riprap.
- 7) Any project that does not meet current ADA standards.
- 8) Land acquisition costs will not be considered eligible for reimbursement, and the valuation of land may not be credited toward the local sponsor's match.
- 9) Projects that do not allow for reasonable access by the public.
- 10) Swimming pools and any type of ball-field or ball-court projects..

Requirements for All Approved Grants

Projects which receive approval must submit appropriate engineering data and/or a site plan for approval before construction begins, along with a legal description of the facility and its location.

Following completion of the project and verification of expenditures on the local sponsor's part, reimbursement will be made by Garrison Diversion. Partial payments may be made at the discretion of Garrison Diversion. Projects receiving grants over \$5,000 may receive a sign paid for by the Garrison Diversion Conservancy District thanking major sponsors of the project.

Recreation projects that receive a grant need to report to the Recreation Committee within three years in order to retain any unused funds, or the funds will be returned to Garrison Diversion's recreation grant pool.

Please mail completed application to Garrison Diversion Conservancy District, PO Box 140, Carrington, ND 58421

*Red River Valley Fair
Association*

Description of Project Features

The projects that we are requesting funds for is to assist with upgrades at the Red River Valley Fair Campground located in West Fargo, North Dakota. This will be Phase IV of this project. Upgrades will include the renovation of 8 current gravel campsites to ADA compliant RV concrete pads (see enclosed map); installing a new feeder water line for Northside of Campgrounds which will also replace one fire hydrant and install two additional fire hydrants; update and install signage and purchase a campground management software program and computer . (See project bid tab enclosed.)

Estimated number of people served

The number of guests using the campground each day varies as we have some single-night usage and we have some all-season usage. In 2017, we were at about a 98% occupancy level. We open in mid-April and closed after Thanksgiving each year. We currently have 91 sites and 6 potential tenting sites. These sites will include – 31 hard surface pads with full hookups, 44 gravel pads with full hookups, 8 concrete pads with 30 amp electrical only service, 8 gravel pads with 30 amp electrical only service (area proposed in 2018 Phase IV Project) and the 6 potential tenting sites.

The vast majority of our seasonal usage guests are construction workers that have come to the Fargo/Moorhead/West Fargo and surrounding areas to work and do not want to stay in hotels or rent apartments. Each year the number of seasonal guests increases with the number of construction projects going on in the Fargo/Moorhead area.

*Red River Valley Fair
Association*

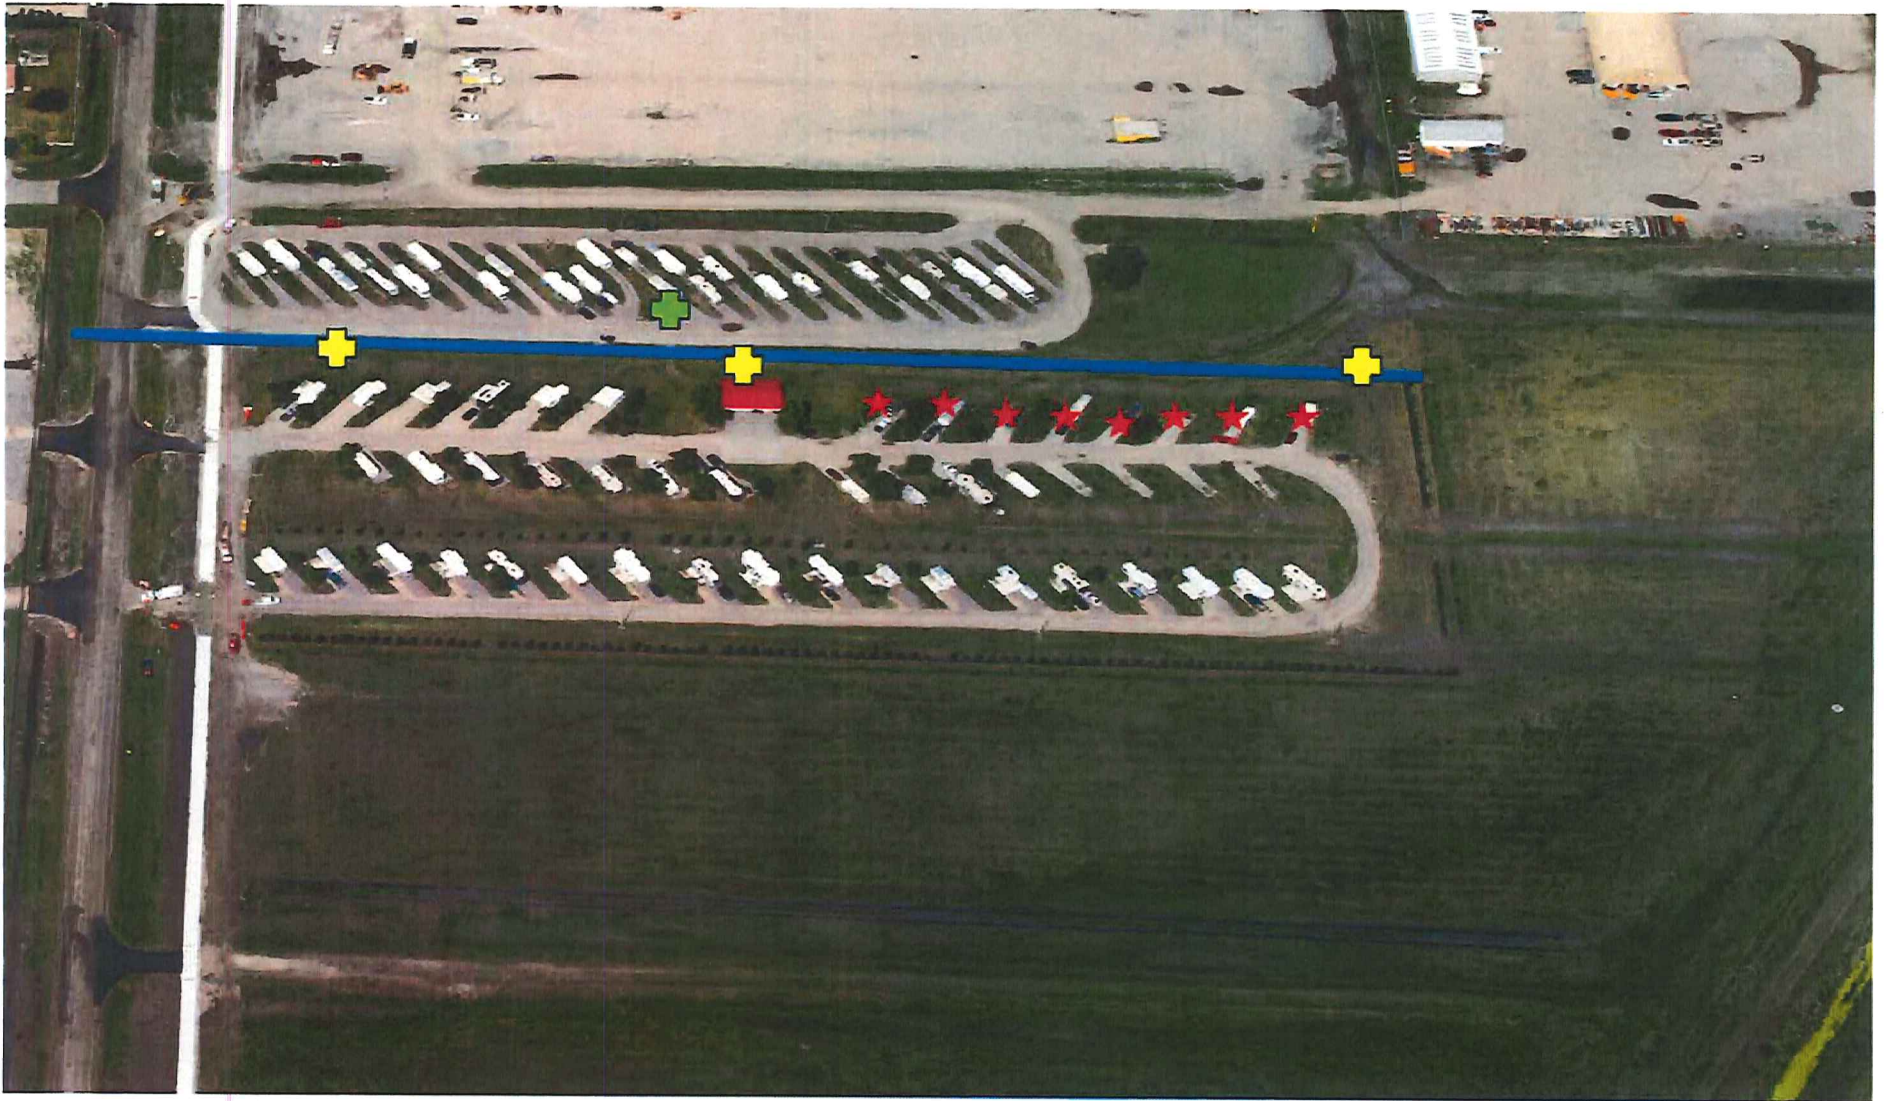

Describe the project site as is and proposed changes (tree removal, drainage area filled, etc.)

Currently, the area that we are proposing to include in Phase IV of the Red River Valley Fair Campground is located on grass and gravel.

In 2017, Phase III, we installed 8 - 20' x 20' x 4" ADA compliant campsite pads with crushed concrete apron area leading in from the main road. We also installed guard-rail on the West end of the campground, lighting, added additional security cameras, build 20 picnic tables and added better signage for this area.

In 2016, which was Phase II of this project, we upgrades 6 current gravel campsites to ADA compliant RV concrete pads that will have a crushed concrete apron; installed trees to the Southside of the campground that will act as wind break; the renovated to the current bathhouse with new fixtures, new partitions and a Vortex Super Seal Coating on the walls, floors and shower stalls in both the men's and women's shower rooms.

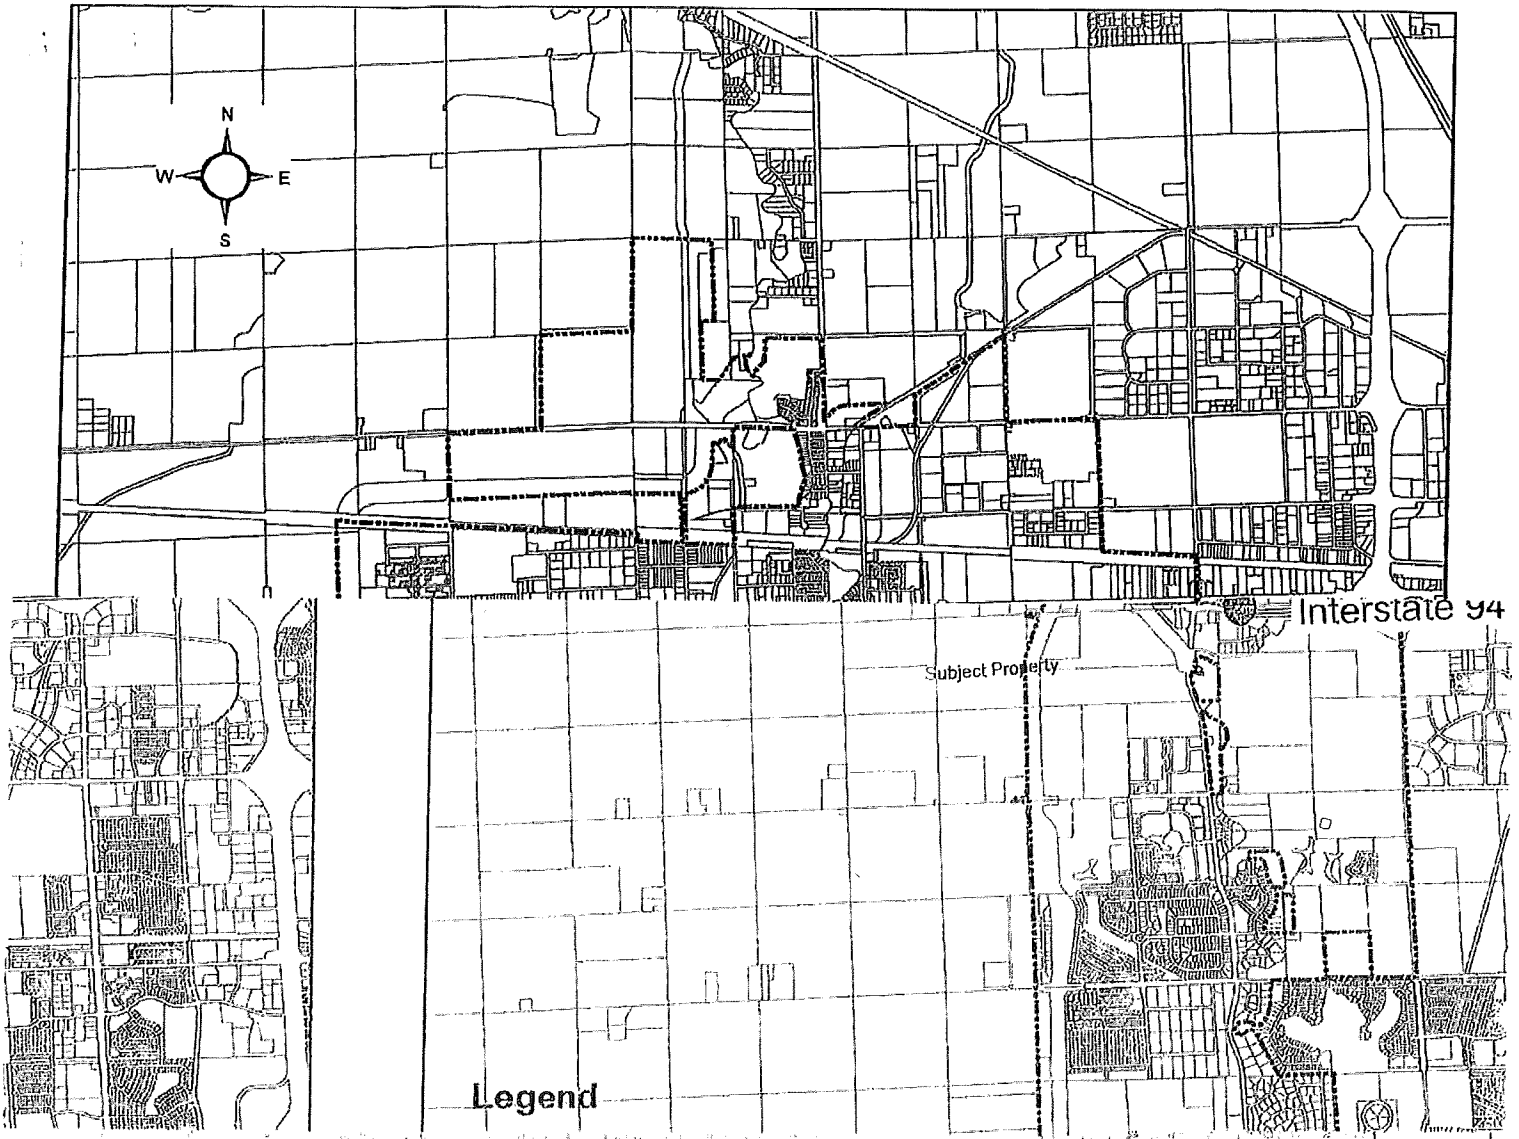

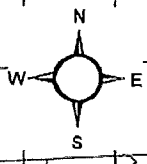

We finalized Phases II and III in 2017.

Red River Valley Fair Campground

-  Proposed Water Line
-  Current Fire Hydrant that will be replaced with a new one
-  Proposed New Fire Hydrant
-  Eight proposed sites for new concrete pads

RV Park & Campground Reservation & Management Software

Click Start Arrow for Audio Overview

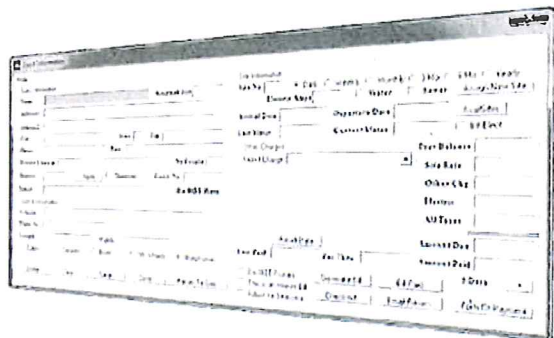

Virtually, the most reasonably priced RV Park/Property Management Program in the market with the Simplicity, Features and Capabilities you need.

We provide you with a simple tool to define up to 4 Park Maps in our Software ... included ... No Extra Charge!!!! In Fact, there are no extra charges for virtually anything.

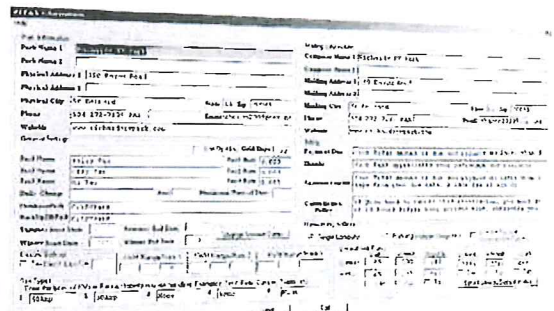

Overview/Training Videos [HERE](#)

The software was developed because a Customer in Texas bought one of the more expensive applications that was too confusing to use. They wanted a simple tool to manage their Guests and reservations in an RV Park Campground. However, it could be used for Motels, apartments, or virtually any rental properties.

The program was designed for small parks, with typically around 300 or less Sites (but we have Customers with over 700 Sites) and to make use of things you already have and not need to purchase other things. Because of this, you would continue to use your current Credit Card processing (RV Park Software does not process the transaction through a Gateway that costs more), you use the standard Windows based PC and a standard 8.5" printer (3 & 4" printers are not supported). The goal is to use what you already have and just make it a LOT easier to keep financial and Guest records.

The tool is full of features and capabilities, but you won't be charged for how many sites you have or if you want to run it on multiple computers, or if you want the next version, etc. like the \$800+ software. This Software has a one time charge and you get everything for just **\$425.00**.

New: Life version for Corporate or a remote located Owner to get reports and activity monitoring through an auto-emailed copy of the database. See [HERE](#) for more information.

SHOP SECURELY **Get 6 months to pay on purchases of \$99+**
Check out with PayPal and choose PayPal Credit

The Trial or Demo version has it all, it is not watered down version. It is the complete tool, there is just a time limit on how long the evaluation lasts ... 30 days is usually enough, but if you need more time, you can [download a code](#) for an additional 30 days for a 60 day evaluation. There is even a 90 day code you can

get by Emailing us if you need it. We want you to know what you are getting and be happy with it.

No extra charge for Networking to other Computers; no charge for Point of Sale capabilities; no charge for maintenance or updates; no charge for on-line reservation tool; no charge for Maps: simply no other charges!!!

All that said, if you have a park with less than **25** sites, please Email us with your Park's Name and the number of Sites (after you try RV Park software) and we may be able to offer you a discount on the purchase.

The only additional cost there could possibly be is if you got a new computer or your hard drive crashed and needed to be replaced, and that is only \$100 for a replacement license.

This is a Windows ONLY Application.

Excellent Property Management Software Package

- *Easy to use and learn*
- **Up to 4 Park Maps to Manage Site Status**
- *Runs on virtually any Windows platform*
- *Only \$425.00 for a Standalone Application*

Other Pricing Info: If you replace or lose (hard drive crashes) your Licensed Computer, there is a \$100 license replacement fee. This is the only possible other charge we have, unless your support hours get too excessive (over 5, which does NOT include actual software issues being reported).

Multiple Park Licenses: If you have Multiple Parks (different locations), you can purchase additional licenses for \$250 for each additional business location.

- *Can be run on Multiple Computers in a Network Environment*
- *Completely Documented Help Files*
- *Limited Free Support (we allocate 5 hours for support for RV Park problems ONLY, which is considerable. Additional hours can be purchased for \$15 an hour ... hasn't ever been needed)*
- *Point Of Sale System Complete with Bar Code Scanner support*
- *Electric Meter Reading Entry Support Tools*
- *FREE On-Line Reservation Tool (Must have a Website)*
- *Supports United States, Canadian, and Australian postal codes*

Description

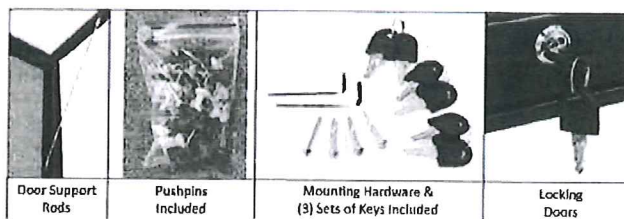

Enclosed Bulletin Board Cabinet with Rubber Gaskets for Use Outdoors

This enclosed bulletin board cabinet for indoor and outdoor use is a great tool for promoting events. Corkboards are often used to communicate with associates in a business, students on a college campus, as well as people in an apartment complex. Each enclosed bulletin board cabinet also works well in a town square to keep residents up to date on all the towns happenings. These outdoor cork displays can hold (18) 8-1/2" x 11" papers or (16) 11" x 8-1/2" flyers. This black aluminum enclosed bulletin board cabinet comes with a bag of push pins to hang posters right away. Outdoor tackboards made of cork are 59" x 41" to really draw in attention. Each message display is an enclosed bulletin board cabinet that includes all mounting hardware. Displaying this corkboard for indoor and outdoor use is an easy task with the included instructions. Customers can choose to hang this enclosed bulletin board cabinet in either vertical or horizontal format. These cork tackboards are only 2" thick so they do not get in the way of people passing by. This large format flyer holder is an enclosed bulletin board cabinet that has a locking hinged door. There are door support rods to keep the door from closing when in use.

(18) 8-1/2" x 11" Papers fit (6) across & (3) down

Each enclosed bulletin board cabinet has (3) locks to keep people from tampering with the notices. Three sets of keys are also included for users to hand out to associates that are in charge of updating the memos. This outdoor cork display is an enclosed bulletin board cabinet that has a clear polycarbonate window for easy viewing. Polycarbonate is a very strong plastic that is highly impact resistant. The frame of this indoor or outdoor corkboard is constructed of durable aluminum. There is a black powder coated finish on the metal construction to work well in any setting. These large cork displays have a rubber gasket on the inside of the door to prevent water from getting inside the frame.

Door Support Rods

Pushpins Included

Mounting Hardware & (3) Sets of Keys Included

Locking Doors

2 Rods keep the door propped open, making it easy to change out information.

Bulletin Board

(/Review/8718)

By Raymond Oosterveld on October 11, 2017 ✓ Verified Purchase

My Display cases arrived within 2 weeks of ordering. I was very happy with the quality.

I had to modify the hanging hardware so that it would work with 16" stud walls. Otherwise not all that difficult to hang.

Will be buying from Displays2go the next time I need a display case.

Description

Wide Brochure Holder with Adjustable Pocket Divider

With an adjustable pocket to hold various types of literature, this wide brochure holder is a simple yet effective marketing tool for restaurants, tourism spots, and real estate offices! The wall mounting display arrives with 2 types of installation hardware, including screws and anchors and VHB tape. To help keep the elements out, the convertible brochure holder has a self-closing lid and plastic build, although it is recommended that this unit is placed under an awning for additional water protection. As well, the polycarbonate pocket is shatter-resistant, an ideal feature for windy days with potential falling debris. Whether you offer take-out menu pamphlets or real estate flyers, the dispenser adjusts from a single 8.5" x 11" display to dual leaflet slots to showcase marketing literature. This brochure holder is ideal for window or wall mounting and offers a clear unobstructed view so you can place this in the perfect location for passing visitors.

Nice and sturdy

([/Review/8385](#))

By Linda on April 10, 2017 ✓ Verified Purchase

These boxes are nice and sturdy plastic. The hinged top opens completely for easy access to the contents. I like that they are versatile and can either hold a 8 1/2" x 11" item or 2 tri-folded items. I mounted them on our metal siding HOA building with self-adhesive Velcro and they are holding up extremely well.

▲ A: It depends on what the pole is constructed of but most likely it would not. This is intended to be mounted to a wall.
