Subject: Jail Housing Addition Update – Klein McCarthy Architects

At the Board meeting on November 21, 2022 representatives from Klein McCarthy Architects will brief the Commission on work-to-date on the project to add a 96-cell housing pod onto the current jail facility.

Klein McCarthy personnel have met with Commissioners Peterson and Kapitan, Administrator Robert Wilson, Buildings and Grounds Supervisor Gene Gartner, Sheriff Jesse Jahner, Captain Andy Frobig, IT Director Bob Henderson, and Assistant Administrator Tracy Peters three times since project kick-off.

These discussions included various sub-contractors who are also involved with the project. The focus has been a high-level review of the conceptual design and identifying staff preferences about building lay-out and operational features. This feedback will be incorporated into the on-going design process.
