MEMO

TO: Cass County Commission
FROM: Bob Henderson, IT Director
DATE: 2/1/2023
SUBJECT: HSZ IT Update

Dear Commissioners,

Over the past 6 months, there has been ongoing discussions between the Human Service Zone and Information Technology regarding transition from Cass County hosted and managed services to State hosted and managed services. As this process has expanded and been updated though out, we have come across new requirements, issues, and solutions.

This item is solely an **information only update** on the status of this, as well as the direction both teams have agreed to continue forward on to best serve Cass County and the Human Service Zone.

NO MOTION NEEDED, INFORMATION ONLY

Bob Henderson
Information Technology Department
