Staff Analysis

Land Use and Surrounding Uses

The subject property is bound by agricultural production land on all sides of the lot. County Highway 1 borders the east of the property.

Floodzone

According to the FEMA Flood Map Service Center, this property is currently unmapped and no Special Hazard Flood Area has been identified. In addition, no wetlands or other notable features are present on the proposed subdivision Lot.

Land Development Rights

The subject quarter-quarter section currently is developed and requires the transfer of a development right. Section 5.04 (e) of the Cass County Subdivision Ordinance states that every quarter-quarter section is granted one (1) Development Right to create a buildable lot with a minimum of 40 acres. Because the lot subdivision proposal is less than 40 acres, a transfer of a development right is required along with a deed restriction.

Staff Recommendation

To accept the findings and recommendations of staff and recommend **approval** to the County Commission of the subdivision application as the proposal **meets** the goals and objectives of the Cass County Comprehensive Plan, the Cass County Highway Access Plan, the Flood Damage Prevention Ordinance, the Cass County Subdivision Ordinance and all other applicable regulations.
