M E M O

TO: Cass County Commissioners

FROM: Kriste Ross, Coroner

DATE: February 5, 2025

SUBJECT: Coroner's Office Digital Fingerprinting System Purchase Request

This budgeted 2025 Coroner's Office request for a digital fingerprinting system is being presented to the commission as the Cass County Coroner's Office is setting a new policy to positively and scientifically identify all decedents whose deaths are investigated by our office.

This policy aligns with the ABMDI and IACME standards state that all decedents need to be scientifically identified. By doing this, we will have fingerprints on file should the family request copies or questions about identity arise in the future.

This is a budgeted expense. The original quote and amount budgeted for 2025 was \$16,999.00

MOTION: Authorize Chair to approve an invoice in the amount of \$16,999.00 to Motorola for a digitized fingerprint software system.
