MEMORANDUM

TO: Cass County Commission

FROM: Tom Soucy, County Engineer 

DATE: February 20, 2025

SUBJECT: Consent Agenda Item for March 5, 2025 Cass County Commission. Purchase of Snowplow Truck Equipment for (2) two trucks.

The proposed budget of 2026 includes the purchase of a box, hoist, and snow equipment for (2) two tandem axle trucks. Due to supply/demand issues, what once was a 4 to 6 month timeline is now 10 to 12 months. Once we get said equipment, it has to be installed which can take another month or more. By ordering the plow equipment now, we hope to be able to use these plow trucks in the fall of 2026. The DOT has bid these items, and currently has an open contract that expires February 28, 2026. We can purchase the equipment meeting our specifications from their vendor. We would not be invoiced the amount until the equipment is installed which would be in the 2026 calendar year. The 2 2026 truck chassis would be bid later in the summer of 2025.

SUGGESTED MOTION:

Move to approve the purchase of snowplow equipment for (2) trucks from Bert's Truck Equipment for \$389,764.00.
