RE: Improvement District No. 2024-1
Buffalo, North Dakota

Dear Mrs. Scherling:

Please find the enclosed map of the proposed sanitary sewer improvements in the City of Buffalo, ND. The proposed project includes replacing the existing sanitary force main from the lift station to the lagoons. As part of the funding requirement with the ND Rural Development (USDA) office, the proposed project needs evidence of consistency with plans from the Cass County Commission.

The proposed project needs to be reviewed by the Cass County Commissioners and evidenced in writing that the project will not be inconsistent with the comprehensive development plan for the area. Enclosed is a sample letter that can be used following your review and put on your letterhead for your convenience. Could you also send us a copy of the letter for our use in the Rural Development application.

If you have any questions, please contact our office at (701) 551-1022.

Sincerely,

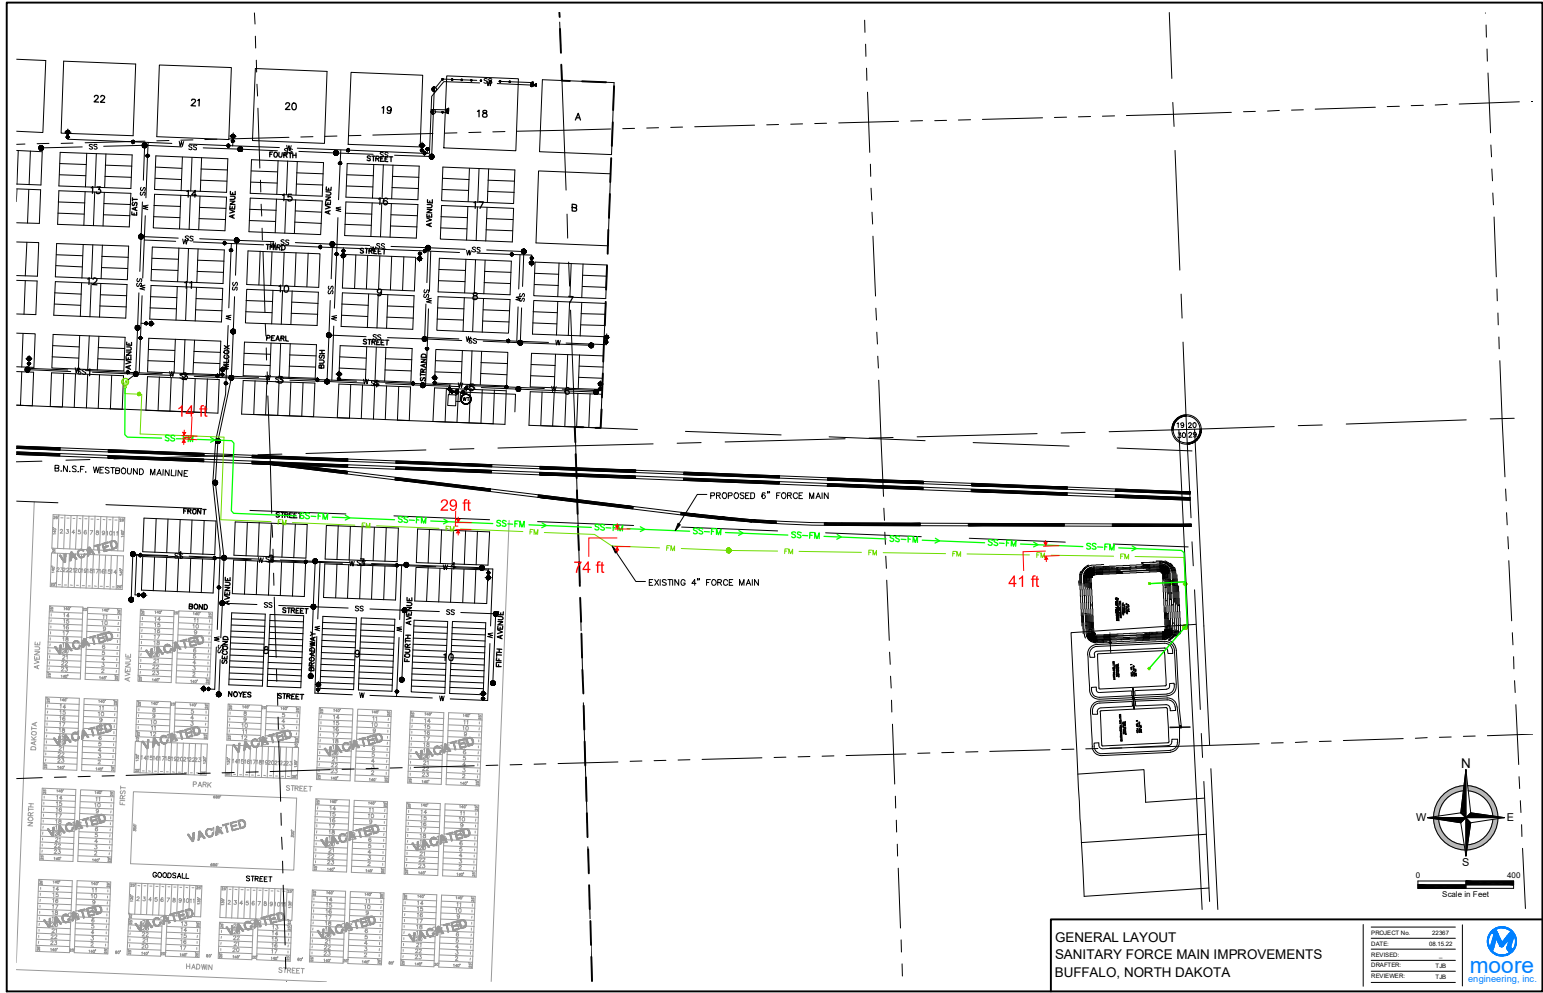

Moore Engineering, Inc.

RE: Improvement District No. 2024-1 Buffalo, North Dakota

Dear Mayor Jager:

After reviewing your proposed sanitary sewer system improvements in the City of Buffalo, Cass County has found that said improvements do not conflict with any county comprehensive development plan for the area.

Sincerely,

Chad M. Peterson, Chairperson
Cass County Commission
